FLOATING SEAL CATALOGUE

METAL FACE SEAL | DUOCONE SEAL | MECHANICAL FACE SEAL

OEM FLOATING SEALS

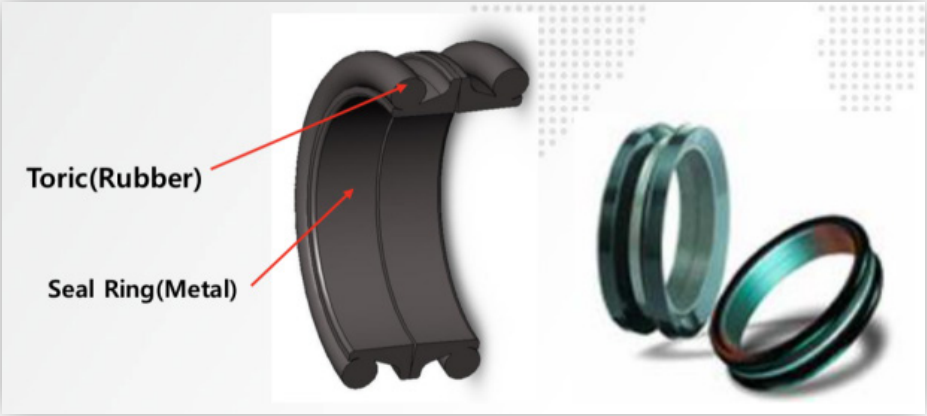

The Floating Seals has been distributed to some OEM Customers in many countries:

WHAT IS METAL FACE SEAL?

Metal Face Seals are designed for use under severe service conditions at relatively low circumferential speeds. They offer reliable protection against solid and liquid as well as leak-proof retention of lubricants.

* **Metal Face Seal = Mechanical Face Seal = Floating Seal = Duocone Seal**

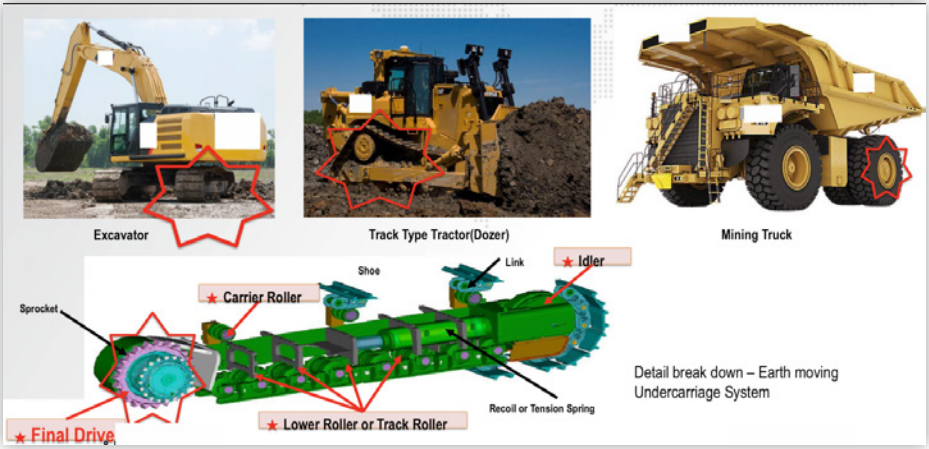

Metal face seal is composed of two metal rings and two torics as a set

WARRANTY

MJP Floating Seals are warranted to be free from defects in material and manufacture under normal uses and service. MJP warranty coverage will extend for the following period depending on applications:

- Off-Highway Applications: 12 Months or 6000 hours of operation (whichever occurs first).

In all the above cases the warranty period extends from the date of installation. However, the total warranty period shall not exceed three years from the original distributor's date of purchase, as indicated on the MJP invoice.

CONDITIONS

The distributor must notify MJP in writing before filing a warranty claim. All warranty claims must be submitted to MJP in writing.

EXAMINATION OF PARTS

MJP reserves the right to examine any or all parts in question as part of the claim under this warranty."

LIMITATIONS

This warranty does not apply to any **MJP Floating Seals** that have been altered from their original state, including but not limited to changes in packaging and/or markings, improper installation, abuse, misuse, and exposure to environmental hazards.

This warranty is provided solely to direct MJP's customers. The warranty is the only obligation of MJP. All other warranties expressed or implied, including the warranties of merchantability and/or for a particular purpose, are excluded.
