PT. MULINDOTAMA JAYA PERKASA

Premium Remanufacturing Service for CAT® EUI Injectors

PT Mulindotama Jaya Perkasa **(MJP)** is a Balikpapan-based remanufacturing specialist serving mining, marine, oil & gas, power generation, and heavy equipment industries. We deliver high-quality remanufactured CAT® Electronic Unit Injectors (EUI) with OEM-level performance, durability, and reliability.

Why Choose MJP Remanufactured Injectors?

- OEM-standard remanufacturing process
- Complete disassembly, cleaning, and inspection
- Precision calibration on injector test benches
- Replacement of critical wear components
- Stable fuel delivery and optimized spray pattern
- Cost-effective alternative to new injectors

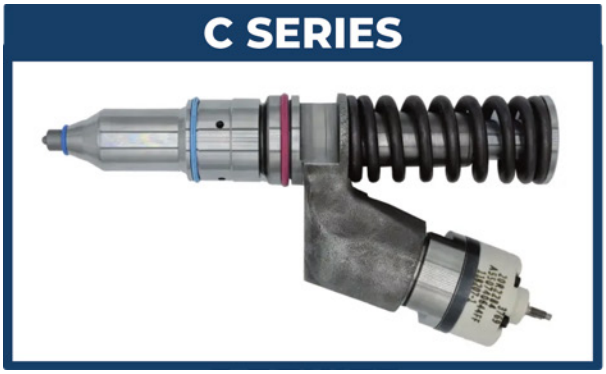

Warranty: All **MJP** remanufactured CAT® EUI injectors are covered by a **12 Months Warranty** or **6,000 running hours** (whichever comes first), against manufacturing and remanufacturing defects, under normal operating conditions.

Core Policy: Old core must be returned. All remanufactured injectors are supplied on an exchange basis. Returned cores must be complete and rebuildable. Additional charges may apply for non-repairable cores.

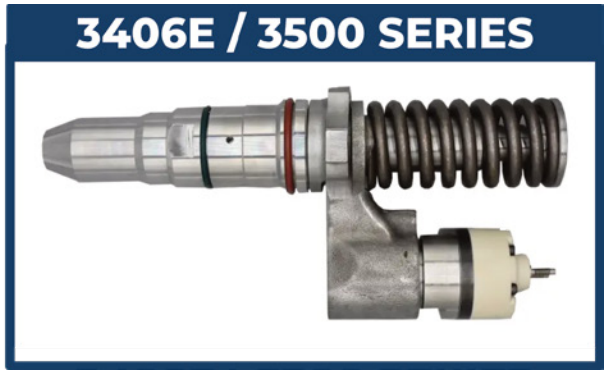

CAT® is a trade brand registered by its owner and is only used for reference purpose of the application of our spare parts.

Warranty Terms & Exclusions

Warranty Coverage

MJP provides a warranty for remanufactured CAT® EUI Injectors for a period of 12 months or 6,000 running hours (whichever occurs first) from the date of delivery. This warranty covers defects arising solely from the remanufacturing process under normal operating conditions.

Warranty Conditions

- Injector must be installed by qualified personnel
- Engine fuel system must be clean and free from contamination
- Proper filtration, fuel quality, and maintenance intervals must be observed

Warranty Exclusions

Warranty does not cover failures resulting from:

- Improper installation or incorrect calibration
- Contaminated fuel (water, dirt, microbial growth)
- Engine mechanical failure unrelated to the injector
- Electrical system faults, wiring issues, or ECU malfunction
- Unauthorized modification or disassembly
- Normal wear beyond warranty period

Warranty Claim Procedure

All warranty claims must be reported to **MJP** immediately upon detection of failure. The injector must be returned for inspection. Warranty decisions will be based on technical evaluation by **MJP**.

**MJP reserves the right to determine warranty eligibility based on inspection results.*
